

CONCUSSION POLICY

The Marlboro Township Recreation and Parks Commission have established the following Concussion Training Policy:

All volunteers and parents whose children are involved in youth sports programs should in good conscience complete an online course on concussions

We recommend: http://www.cdc.gov/concussion/headsup/online_training.html but any training course on concussions would be sufficient.

We also recommend that every youth sports program in Marlboro Township establish an enforceable provision for appointing only coaches or volunteers that have completed such a course.
